1. Incident Name Gold King Mine Release A8K9 CO-COEM-I002	2. Operational Period (Date/Time) From: 8/17/2015 0700 To: 8/20/2015 0700	INCIDENT OBJECTIVES ICS 202-EPA
3. Incident Objective(s) <ul style="list-style-type: none"> - Continue sampling plan and develop strategy to evaluate and mitigate risks due to sediment in the river. - Continue river assessment through water sampling. - Effectively communicate with public and stakeholders utilizing a multi-faceted communication strategy to disseminate results. - Ensure health and safety of the public and response management personnel. - Develop a means to assess the economic impact upon affected communities. - Provide water of appropriate quality for specified use. - Continued coordination with the Department of Agriculture (including state and local veterinarians) and the Colorado Extension. - Continue management of adit discharge. - Maintain stability of mine road to ensure access. - Prepare for mine dump stabilization. - Amend field sampling plan to include assessment of remote areas of the canyon by Tuesday 8/18/2015. - Roll current well sampling effort into interim shallow groundwater monitoring plan currently under development. Communicate private well results and other follow-up action within 96 hours of sampling. - Develop a demobilization plan for next operational period. - Long term planning for mine ops for Silverton and San Juan County (including community outreach). - Implement medium term river monitoring plan with contractor per their scope of work. - Ensure the coordination of CDPHE's notification system with monitoring contractor to implement event specific sampling. 		
4. Operational Period Command Emphasis Communication openness and transparency with community and stakeholders.		
5. Safety Objectives for Operational Period Report all injuries to immediate supervisor and Safety Officer. Jason Nakatsu 619-865-3030

Incident Name	Gold King Mine Release
Operational Period:	72 Hours (Day Ops Only)
Prepared By:	LChavez
Date:	8/16/15

Event Name: Gold King Mine

Date: 08/17/15 - 08/20/15

Ops Period: 0700-0700

UNITED COMMAND
Gold King Mine Release
JOINT INFORMATION CENTER

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name: CO-COEM-I002 Gold King Mine Release A8K9	2. Operational Period: Date From: 8/17/15 Date To: 8/20/15 Time From: 7:00 Time To: 7:00
3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan: <p>Fatigue, complacency, and stress are a continual concern. Awareness of surroundings, focusing on one task at a time, taking breaks as needed, and an increased awareness of supervisors is critical to staying safe. Supervisors should review work/rest protocols and ensure response personnel are given adequate time off.</p> <p>Please remember to follow agency protocols, policies, HASP's, and best practices. Ensure proper PPE is worn when required and decon properly after use. Anyone visiting the mine site is required to wear at minimum safety shoes, a hard hat, safety vest, and protective eyewear. Review MSDS sheets prior to handling any hazardous material. If you need additional PPE see your supervisor or the safety officers. Be careful of footing when in the field taking samples, PFD's are required when within 6' of the river.</p> <p>Altitude can affect your health and endurance. The use of sunscreen, taking frequent breaks, and staying hydrated can reduce the effects. Avoid over exertion until you become acclimated.</p> <p>Driving is probably the most dangerous thing you will do today. Watch for wildlife, avoid distracted driving (texting and talking), wear your seatbelt, and obey all traffic laws. Share driving duties with co-workers when possible. If driving long distances take breaks, get out, stretch, and walk around. Be patient, tourist, farming, road construction and other activities may slow traffic speeds. Keep a safe 3-second following distance. Slow Down! You aren't late if you arrive safe!</p> <p>Mine Ops (NOTE): Due to the remote location, altitude, and narrow unstable roads create a dangerous environment. Continue to keep good communication on traffic movement, use spotters when backing up or turning around, maintain situational awareness, stay hydrated, and monitor work/rest for heavy exertion tasks.</p> <p>UTV Operation: Keep speed to maximum of 10 mph, ensure all operators attend Coast Guard training, radio communication for traffic control, use seat belts and a spotter for backing up.</p> <p>Please report any accident, injury, or illness to the safety officers. Also report near misses, lessons learned may save someone else in the future.</p>

DIVISION / GROUP

Tactical Hazards	Mine Site	Assessment /Mitigation.	Sampling	Ditch	Command	Hazards	Mitigations
Driving	X	X	X	X	X	Speeding, distracted driving, mountainous roads, driving while impaired, wildlife	Follow all traffic laws, maintain safe following distance, avoid distractions, watch for wildlife, wear seatbelt, ensure vehicle is working properly, use spotter.
Trips, Slips, Falls	X	X	X	X	X	Stairs, uneven ground, wet ground, cords, equipment, tools, loose soil, distracted	Wear proper footwear, use handrail, test unknown ground, plan path, use fall protection when at heights greater than 6 feet, clean footwear
Dehydration	X	X	X	X	X	Long hours, caffeinated drinks, hot weather, heavy clothing	Drink lots of water, take frequent breaks
Fatigue	X	X	X	X	X	Stress due to situation, long hours, altitude, lack of sleep	Take frequent breaks, avoid alcohol, get rest at night, have a laugh!
Sun Exposure	X	X	X	X	X	Sun is more imposing at higher altitudes	Use sunscreen, seek shade for breaks, wear appropriate clothing and hat
Animals, Insects	X	X	X	X		Domestic and wild animals can be aggressive, insects can cause allergic reactions	Be aware of surroundings, avoid animals, have citizens control animals before exiting vehicles, report any symptoms from insect bites.
Exposure to Hazardous Chemicals	X	X	X	X		Mitigation at the mine, testing water, and mitigation of the ditches are all potential exposures.	Wear appropriate PPE, review MSDS prior to handling chemicals.
Confined Space	X					Limited access/egress, oxygen deficient, limited visibility	Follow confined space rules of operation, test atmosphere prior to entering, use confined space watch, proper ventilation or provide air.
Heavy Equipment Operations	X	X				Limited visibility, many moving pieces, loud, underground and overhead hazards	Use potter, line locations, stay in eye contact of operator, work at safe speeds, operator has right of way, wear hearing protection.
Public Interaction		X	X	X	X	Residents, business owners, farmers, and ranchers will naturally be curious, angry, anxious, etc.	Be courteous, be informative, be patient, be polite. If situation becomes agitated, leave and readdress with appropriate officials (local or law enforcement present)
Heavy Lifting	X	X				Movement of equipment, tools, etc., uneven ground.	Use equipment when possible, two man lift, use proper lifting techniques
Office Hazards					X	Sitting too long, eye strain, loose cords, stairs, loud noises, fatigue	Keep cords and other items out of walkways, use hand rails when climbing stairs, take frequent breaks when operating computers.
Mine OPS Specific	X					Altitude, narrow/unstable roads, remote location.	Use of Radios for good communication to control traffic, use spotter when backing and turning around, accountability by checking into and out of site, drink plenty of water and monitor work/ rest periods.
UTV Operation	X					Different handling, rollover potential, unsafe speed.	Keep speed to 10 mph, ensure all operators attend Coast Guard training course, radio communication for traffic control, use spotter for backing up, use seat belts.

Contract Field Talking Points

What are you doing?

I am performing environmental sampling in support of the Animas River Unified Command.

Contract personnel are free to explain standard operating procedures:

- gloves are used to preserve sample integrity, they are not required for person protection
- explain preservation steps
- explain how to sample, etc.

How do I get more information?

San Juan Basin Health
281 Sawyer Drive #200
Durango, Colorado 81303
970-385-8700
email: animasriver2015@gmail.com
web: www.sjbhd.org

Government Field Notes

What are you doing?

On August 5, the Gold King Mine released water that was held above the mine tunnel, spilling about 3 million gallons of mine waste into Cement Creek a tributary of the Animas River. Even though the majority of the mine water from the event has passed, both EPA and the Colorado Department of Public Health and Environment continue to monitor the situation by sampling water and sediment to determine the long term course action.

Is it safe to use the river?

The data indicates that the river has returned to stable conditions that are not a concern for human health during typical recreational exposure. There will be some discoloration of the water when the sediment is disturbed, this discoloration does not pose an immediate health risk. The San Juan Basin Health Department concurs with the state health department findings, and advises that there are no adverse health effects from exposure to the water and sediment during normal recreational use (incidental or limited exposure). The San Juan Basin Health Department advises the public to avoid areas with orange sediment or discolored standing water. Further, anyone coming in contact with any orange sediment or discolored standing water should wash with soap and water.

How do I get more information?

Update on Local Response to Gold King Mine and Animas River Impacts - Sheriff Smith Opens Recreation on the River in La Plata County

Durango, CO – The Colorado Department of Public Health and Environment has collected and analyzed sediment from the Animas River. The data show levels of contamination are below what would be a concern for human health during typical recreational exposure.

Based on this statement from the state health department, Sheriff Sean Smith has made the decision to open the river to recreational use with the attached health advisory from the state health department. Sheriff Smith said, "My primary concern is the public health and safety of our community. In an abundance of caution, with the consultation of all our partner agencies, I issued the order to close the river to recreational uses on Thursday, August 6. With the release of preliminary results from the state health department and its accompanying recommendation, I am opening our river for recreation effective Friday, August 14, 2015 at noon with the health advisory."

Sediment is just one indicator of a healthy river, and there is some level of contamination in most Colorado rivers because of past mining activities and the geology of the state. The Colorado Department of Public Health and Environment does not anticipate adverse health effects from exposure to contaminants detected in the water and sediment during typical recreational activities. The Agency for Toxic Substances and Disease Registry recommends the following recommendations are prudent public health practices regarding contact with sediments and surface water:

1. Don't drink untreated water from the river
2. Wash hands thoroughly with soap and water after contact with the sediment and surface water.
3. Avoid contact in areas where there is visible discoloration in sediment or river water.
4. Wash clothes after contact with sediments and surface water.

In addition, the EPA sediment samples collected in the Animas River from Baker's Bridge to north of Durango have been analyzed but not yet validated. EPA has done a preliminary review of the data which included a comparison to background to determine if the metal concentrations are consistent with pre-

incident levels. Metal results that exceeded pre-incident levels were subsequently compared to risk-based screening levels. These preliminary results indicate that minor exceedances of background concentrations were observed for antimony, lead, silver, thallium. However, comparison to risk-based screening values found these exceedances to be below risk screening levels.

The review and interpretation of these data was a collaborative effort that included state and local members of the unified command. Once EPA sediment data is validated, it will be posted online at: <http://www2.epa.gov/goldkingmine>

While conditions in the Animas River today have been determined safe for recreational use, irrigation ditches that draw from the river currently are being flushed, and agricultural users should continue to exercise patience until this process is complete.

La Plata County has flushed and allowed use of some irrigation ditches for watering crops such as wheat and alfalfa. The county is systematically working to reopen all ditches. Operators of ditches that use water from the Animas River are asked to call the La Plata County Call Center at 970-385-8700 so officials can coordinate reopening of all river head gates. Flushing may cause local, temporary discoloration of the Animas River, which should clear quickly.

Gardeners who use water from the Animas River and grow leafy vegetables and root crops should call the CSU Extension office at 970-382-6463. Answers to questions are site and crop specific.

The Colorado Department of Agriculture State Veterinarian's Office is confident that water from the Animas River can be used to water livestock. "The information we have received shows that water quality levels are comparable to those prior to the spill," said Dr. Carl Heckendorf, State Veterinarian for the Colorado Department of Agriculture. "We will continue to monitor the situation and will provide updates if it becomes necessary."

Local, tribal, state and federal agencies will continue to test water and sediment routinely and will respond quickly to any potential issues.

Incident information is posted to the La Plata County website at <http://www.co.laplata.co.us/emergency>, San Juan Basin Health Department's Website at www.sjbhd.org, on Facebook at www.facebook.com/LaPlataCounty, and <http://www.facebook.com/sanjuanbasinhealth>. Data is posted to Colorado Department of Public Health and Environment website at <https://www.colorado.gov/pacific/cdphe/animas-river-spill>, at EPA's website at <http://www2.epa.gov/goldkingmine>. La Plata County has set up a call center for questions from citizens at 970-385-8700, open from 8:00 a.m. to 6:00 p.m. Southern Ute Tribal members may call the Tribal Hotline at 970-563-5025.

###

ORDER OF THE LA PLATA COUNTY COLORADO SHERIFF
TERMINATING THE USE RESTRICTIONS ON THE ANIMAS RIVER

AUGUST 14, 2015

Pursuant to the authority vested in me under C.R.S. §§ 33-13-111 and 112, I, Sean Smith, Sheriff of La Plata County, Colorado, hereby issue this Order dated August 14, 2015.

I. Background

A. On August 5, 2015, the EPA and State Division of Reclamation, Mining and Safety team working to investigate and address contamination at the Gold King Mine in San Juan County, Colorado unexpectedly triggered a large release of mine waste water into the upper portions of Cement Creek located in San Juan County, Colorado. Revised estimates are that the release contained approximately 3 million gallons of water that was held behind unconsolidated debris near an abandoned mine portal.

B. The EPA recommended that recreational users of the Animas River avoid contact with or use of the river until the pulse of mine water passed.

C. After consultation with the EPA, Colorado Department of Public Health and Environment and San Juan Basin Health Department, I determined that a hazard to human life and safety existed within La Plata County and on August 6, 2015 issued an order imposing use restrictions on the Animas River.

D. The San Juan Basin Health Department and the Colorado Department of Public Health and Environment have determined and advised me that it is safe to reopen the river to recreational use, subject to the attached list of advisements.

D. Based upon sampling data that has now been produced and in consultation with local, state and federal officials, I have determined that the threat to human life and safety has passed and that it is appropriate to terminate the restrictions put in place on August 6, 2015, subject to the attached advisements.

II. Directive

As of August 14, 2015 at 12:01 p.m., the official use restrictions put in place on August 6, 2015 shall be lifted and recreational activities on the entirety of the Animas River located within the jurisdiction of La Plata County may be fully restored, subject to the attached health advisements.

Sean M. Smith, La Plata County Sheriff

Animas River Health Advisory

The Colorado Department of Public Health and Environment has collected and analyzed water quality and sediment from the Animas River. The data indicates that the river has returned to stable conditions that are not a concern for human health during typical recreational exposure. There will be some discoloration of the water when the sediment is disturbed, this discoloration does not pose an immediate health risk.

The San Juan Basin Health Department concurs with the state health department findings, and advises that there are no adverse health effects from exposure to the water and sediment during normal recreational use (incidental or limited exposure). The San Juan Basin Health Department advises the public to avoid areas with orange sediment or discolored standing water. Further, anyone coming in contact with any orange sediment or discolored standing water should wash with soap and water.

The Colorado Department of Public Health and Environment will continue to test water and sediment routinely and will respond quickly to any potential issues. Visit the [state health department website](#) for data and updates. The San Juan Basin Health Department will remain in contact with state health department and will provide any updates and public health recommendations as necessary.

FOR IMMEDIATE RELEASE, AUGUST 14, 2015

NEWS RELEASE

City Begins Pumping

Durango, CO: As of 2:00 p.m. this afternoon, the City of Durango has resumed pumping raw water from the Animas River for further treatment. The decision to resume pumping was made after the City received the results of independent water quality tests. On August 12th, the City was notified by the Colorado Department of Public Health and Environment that the City could begin drawing water from the Animas River as needed for drinking water treatment.

During pumping, City Utilities department staff will continue to analyze water quality samples according to already established protocols to ensure the safety of the City's drinking water supply. Results of the testing will be posted on the City's website at www.durangogov.org/utilities.

Residents and businesses can now resume responsible outdoor irrigation. "A huge thank you to our community," commented Mayor Dean Brookie. "We put out the call to discontinue outdoor irrigation and the community responded by reducing their usage by more than two million gallons a day in just 48 hours. We appreciate everyone's cooperation in helping to keep our drinking water safe."

The City will utilize a phase approach to allow the use of City water for larger irrigation needs such as the Hillcrest Golf Course, Fort Lewis College, 9-R School District, and City parks.

For more information on water saving tips, please visit www.durangogov.org/utilities.

Attachment: Community Event Information

Event: Love the Animas

Joining in and supporting the Event "Durango is back - River and Bike Parade", Mild to Wild wants to show our love for the #AnimasRiver and our appreciation for the community support.

In celebration,

1. We have 2 boats reserved for local officials and media. Please call Mild to Wild to reserve your seat (970.247.4789).
2. We are also donating 40 seats in rafts to the 1st 40 reservations. To reserve your seat: <http://bit.ly/1ffVXLs>
3. We will be facilitating private boaters and help manage congestion by providing people shuttles. We will be making loops from Four Corners & Santa Rita Park to 32cd or 29th Street from 4:30pm-5:30pm and 7:30-8:30pm.

Thanks again for all your love and support. The Animas River really is the heart of Durango and impacts us in more ways than most of us thought! If you have your own boat, the parade starts at 5:30 pm. If you prefer to show your support via the riverside bike path, join in by foot or bike. Let's show the world how beautiful Durango is, how lucky we are to live here and what a beautiful recreational and adventure waterway the #AnimasRiver is.

Date: Tuesday, August 18th

Time for event "Durango is back - River and Bike Parade: 5:30 pm at 32cd, 29th or anywhere on the bike path.

Meet time for Mild to Wild's Raft Trip "Love theAnimas", join us at Mild to Wild at 4:45pm.

Post parade: Head downtown to support our businesses there!

Spread the word! #AnimasRiver #LoveRiver #VisitDurango #LoveTheAnimas
